

SUPPORT OF NEW COLLEGE

HON. DAN MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 28, 2001

Mr. MILLER of Florida. Mr. Speaker, I am hear today to congratulate New College on being the newest accredited independent liberal arts college in the state university system of Florida.

New College was founded in 1960 as an independent college by Sarasota and Bradenton civic leaders. When the school opened in 1964, it accepted students on their academic talents, not on their race, creed or gender. In 1975, during a time of financial uncertainty, this 650-student college joined with the University of South Florida. Even with this merger, New College retained its faculty, academic programs and competitive admissions. New College is known as the Honors College of Florida, being the only public college or university in Florida designated as "Highly Competitive" by Barron's Magazine. The graduates of New College are some of the brightest and most motivated of all college graduates in the country.

I wish the best of luck to New College and to all its students and faculty during its transition. They have met many challenges in the past and face more in the future, but New College will succeed and make Florida very proud. I am honored to represent this institution.

**TRIBUTE TO W. GEORGE
HAIRSTON III**
HON. SPENCER BACHUS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 28, 2001

Mr. BACHUS. Mr. Speaker, I rise today to honor Mr. W. George Hairston III for his outstanding contributions to the U.S. commercial nuclear industry and, by extension, to the nation as a whole. Mr. Hairston currently serves as president and CEO of Southern Nuclear Operating Company, and was recently inducted into the State of Alabama Engineering Hall of Fame in recognition of his accomplishments.

Mr. Hairston's resume is extensive and distinguished. He is a veteran of the United States Army Corps of Engineers and of the Vietnam War. His degrees were earned at some of the top engineering universities in the country; such as his undergraduate engineering degree from Auburn University and his Master's in Nuclear Engineering from the Georgia Institute of Technology. Additionally, in 1991, he successfully completed the Massachusetts Institute of Technology's Program for Senior Executives.

Mr. Hairston is also active in his community, holding positions on the Board of Directors for the Institute of Nuclear Power Operations (INPO), where he also served as chairman of the INPO National Nuclear Accrediting Board, and the WANO-Atlanta Center Governing Board. Mr. Hairston is currently a member of the Nuclear Energy Institute (NEI) Board of Directors, Executive Committee, and the Nuclear Strategic Issues Advisory Committee (NSIAC).

He also serves as Chairman of the NEI Government Relations Advisory Committee.

It is clear that such honors and qualifications are more than most individuals could obtain in a lifetime. However, Mr. Hairston continues to strive for excellence not only in his work but also in his community. He stresses the importance of equality in the workplace and focuses on minority recruiting. Additionally, he understands the importance of cultivating in the nation's youth an understanding of and an interest in the field of engineering. By serving on the Board of Directors for Junior Achievement in Birmingham and the Auburn Alumni Engineering Council, and by chairing the INROADS/Birmingham Advisory Board, Mr. Hairston positions himself as a mentor for bright, young engineers. His refusal to remain content with serving and influencing any one area or group is both admirable and challenging. While his accomplishments are many, it is his concern for his fellow citizens and his country that truly set him apart.

Mr. Speaker, please join me in honoring Mr. W. George Hairston III, an outstanding businessman, leader, and servant to the community.

**CALL FOR HUMANITARIAN ASSISTANCE
TO THE PEOPLE OF THE
NUBA REGION IN SUDAN**
HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 28, 2001

Mr. RANGEL. Mr. Speaker, I rise before you today to bring your attention to the grave situation in Sudan and specifically to the people of the Nuba region. I urgently call on President Bush and Secretary of State Colin Powell to work for an immediate lifting of the cruel siege of the Nuba region of Sudan.

For over ten years, the Government of Sudan has denied all humanitarian relief aid to the people of the Nuba, despite the terrible plight of tens of thousands of innocent civilians. Very recent reports indicate that the cumulative effect of this brutal siege has been to push 85,000 human beings to the very brink of starvation. Without immediate humanitarian intervention, thousands of people will begin to die—and they will continue to die until humanitarian aid is permitted into the region. Countless mothers will suffer the agonizing fate of watching helplessly as their children die for lack of food, and then succumbing themselves.

This is intolerable and utterly indefensible. Nowhere in the world is the denial of food aid used as a more vicious weapon of war than in the Nuba region of Sudan. Further, Government of Sudan offensives have recently burned thousands and thousands of people out of their homes, making them even more vulnerable in these precarious circumstances.

There is in Lokichokio in northern Kenya, the center of relief operations for southern Sudan, humanitarian aid ready and able to assist the people of the Nuba tomorrow. What is required is access. It is imperative that the United States take the international lead in demanding, in the strongest possible terms, that the Government of Sudan lift this brutal siege immediately.

We must continue to work together as a nation to stop slavery, aerial bombardments of

innocent civilians, religious persecution and induced famine in the Sudan. The recent passage of the Sudan Peace Act of 2001 with an overwhelming vote of 422 to 2 shows the tremendous support of the U.S. House of Representatives in applying all necessary means to bring an end to the 18-year civil war and its related atrocities. We must continue this momentum in the Senate, and show unified U.S. support with unanimous passage of the Sudan Peace Act when it comes to the Senate floor.

INTRODUCTION OF THE "ENDANGERED SPECIES CONSOLIDATION ACT"
HON. C.L. "BUTCH" OTTER

OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 28, 2001

Mr. OTTER. Mr. Speaker, since 1970, two federal agencies have had jurisdiction over implementation and enforcement of the Endangered Species nationwide—the U.S. Fish and Wildlife Service (USFWS) under the U.S. Department of the Interior, and the National Marine Fisheries Service (NMFS), which is part of the National Oceanic and Atmospheric Administration under the U.S. Department of Commerce. Before 1970, NMFS' programs were implemented by USFWS. This changed when President Nixon signed a law creating it 3 years before the enactment of the Endangered Species Act. If President Nixon knew how ESA and NMFS would look today—30 years later—he probably would have second thoughts.

The U.S. Fish and Wildlife Service has jurisdiction of over 1,800 species of plants, mammals, birds, and fish, and an annual ESA budget of \$112 million. NMFS—with responsibility for just 42 listed species of marine mammals and fish—has an annual ESA budget nearly as high as USFWS—\$105 million. Many of NMFS' "species" include "evolutionary significant unit" designations that NMFS created without Congressional authorization—an issue that is now pending in federal district court.

Mr. Speaker, the goals and activities of these two agencies have become blurred. For example, both NMFS and USFWS have undertaken the listing and recovery of Atlantic salmon, the Gulf sturgeon, and four species of sea turtles.

In the Pacific Northwest, the USFWS manages freshwater bull trout and hatchery salmon, while NMFS has devoted billions of dollars to regulate and enforce the recovery of "wild" salmon and steelhead in the same watersheds.

NMFS allows the commercial and tribal harvest of thousands of salmon that it acknowledges are endangered. NMFS' interpretation of ESA has caused hundreds of activities—including those having minimal impact—or those that actually aid—the recovery of species to be held up for months or years.

Instead of becoming more efficient, NMFS' response is to request more federal money and expand their regulatory activities while failing to identify goals of how many species of fish it needs to recover.

All species—fish and humans—deserve better from the federal government. That is why today I and my friend and colleague from
